WHAT IS KASA?

Korean American Student Association, aka KASA, is an organization on campus that targets people who have a love for the Korean Culture, Community, or even people who want to find something new during college. KASA targets students from California Polytechnic University of San Luis Obispo.

They currently have 200 active members and counting. The active members range from ages 18-22. The ethnic range of this club is mostly Asian American however there are a few that come from a White or Mexican ethnic background. The service KASA provides is for students on campus to be socially involved on campus and to sell our loving community of KASA. The students who join this club come from all over the nation from Los Angeles to Minnesota. KASA's main competitors would be the other campus clubs, mainly: Chinese Student Association (CSA) and Pilipino Cultural Exchange (PCE), as they are the two top two biggest culture clubs on campus. To make sure the members of KASA can make all events, KASA needs to collaborate

with the other clubs to know when they are hosting events and when we are hosting events. As the clubs are all located in San Luis Obispo, KASA, CSA as well as PCE all have to work together to know what days the best is to host events, meetings, fundraisers and more
